Testimonies

Renaldo Everette is an outstanding photographer with a creative mind. I have had the pleasure to work with him to build my model portfolio. He does well with shooting angles and making sure that the model is very comfortable. Renaldo makes your pictures "Picture Perfect" with his amazing editing skills. He makes sure his work is not over photoshopped and that they look as "Natural" as possible. He also uses his creative skills by creating a graphic design for your use, community projects, as well as websites. His prices are very reasonable and you will receive quality photos. The name "Renaldo Creative" definitely fits his personality as well as his image.
